Gearing up for Camp!

Scouts should start to prepare in a spot at home their items for Summer Camp at least 2 Months Early! This allows to get "missing" Items!

All Gear should be in a Tote such as this one pictured. This is from Academy Sports and is about $30, Make sure to bring a pad lock to keep it secured during the day or when away. If a combination lock or key give the combination/ spare key to the medical officer in a bag with the scout's name on it. We will keep them secure and when the scout "forgets" or "Loses" the key we won't have to cut it open. The Scouts Name should be written on the tote with a Paint Marker! All Items should have some sort of identification for that scout so if found it can be returned! Also, if you send spending money for your scout and want it portioned out through the week that can be with the key / combo at Medical. (Recommended amount is between $50-$100) this can also be on a gift card)

What to Pack? Well below we have made a checklist of items recommended and some optional for them to pack!
